

## CONTRACT IS AWARDED FOR NEW BUNGALOWS

Park City Man Shows Confidence in Salt Lake by Investing Heavily.

Contracts for a row of five bungalows, which will cost approximately \$15,000, were let Thursday by W. A. Adams to George Foster, and work on the excavation was started at 323 East Third South street. With the letting of the contract for this row of houses came the announcement that W. A. Adams of Park City will erect an apartment building on East Third South street in the near future and another row of eight bungalows will also be constructed. The improvements on this property, when completed, will cost approximately \$80,000.

The row of bungalows, for which the contract was let Thursday, will be erected from plans drawn by W. J. Cammille. The designs are unique in that this row of buildings will be the first of its kind in the intermountain region. The row of bungalows will extend from Third South street towards the middle of the block, and the row of eight dwellings to be constructed in the near future will face the first row in a court, the entrance of which will be flanked by the apartment house.

Mr. Adams, the owner of the property, is a business man of Park City who is giving evidence of his faith in the future of Salt Lake by investing his capital in rental property.

### Stiff Neck

Stiff neck is caused by rheumatism of the muscles of the neck. It is usually confined to one side, or to the back of the neck and one side. While it is often quite painful, quick relief may be had by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires internal treatment. When there is no fever and no swelling as in muscular and chronic rheumatism, Chamberlain's Liniment will accomplish more than any internal treatment. For sale by all druggists.

### New Incorporations

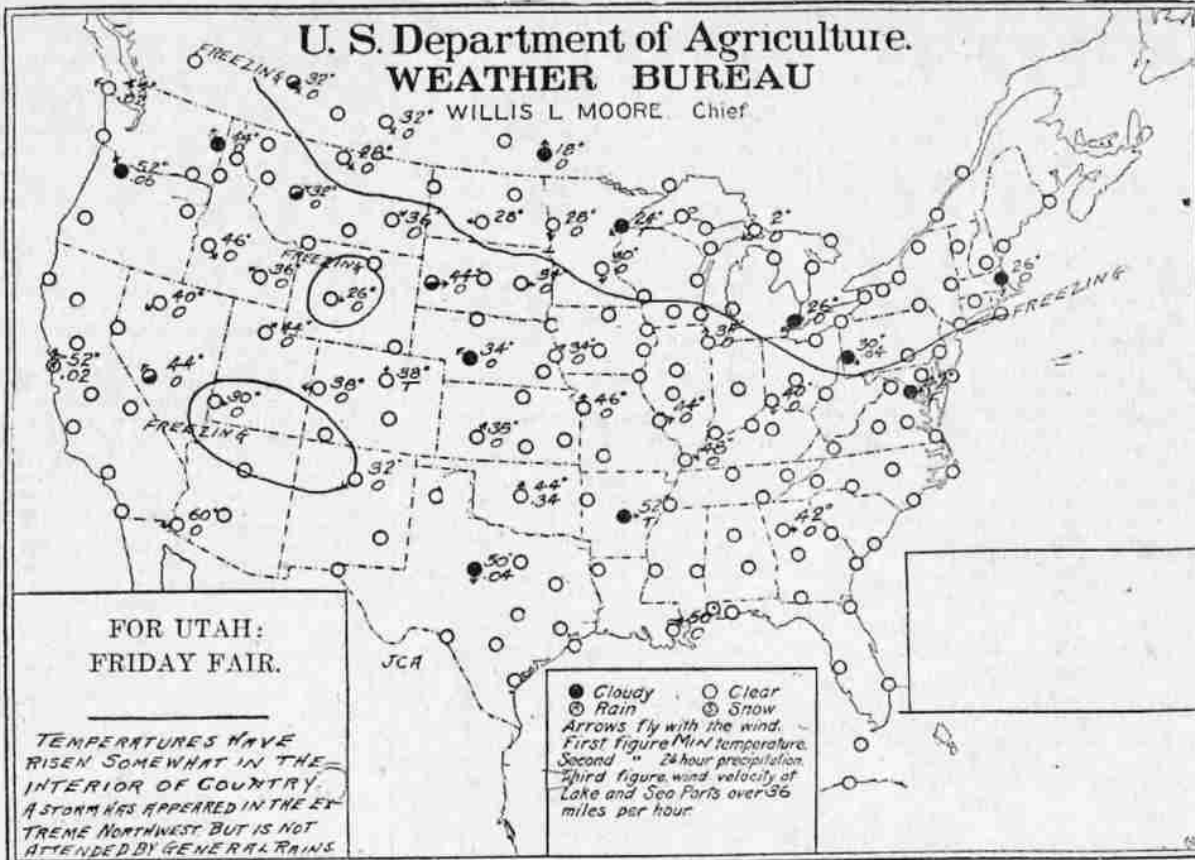

The Consolidated Motor company of this city filed articles of incorporation with the county clerk Thursday. The capital stock of the company is \$50,000, divided into shares of the par value of \$100 each. J. H. Moyle is president; C. S. Burton, vice president; M. D. Wells, secretary and treasurer. These, with George T. Odell and George Romney, constitute the board of directors. The company will engage in the automobile business in this city.

Articles of incorporation of the Burch Building and Mercantile company of Salt Lake were filed in the county clerk's office. The capital stock is \$10,000, divided into shares of the par value of \$1 each. W. C. Burch is president; A. E. Burch, vice president; H. J. Burch, secretary and treasurer. These, with W. C. Burch, Jr., and H. W. Burch, are the directors.

A copy of the articles of incorporation of the Price Steam Laundry and Cleaning company of Price was filed with the secretary of state. The company is capitalized at \$600, divided into shares of the par value of \$1 each. A. W. Shiner is president; S. H. Weston, vice president; J. W. Sterling, secretary and treasurer. These, with Albert Anderson and May L. Sterling, are the directors.

The Eagle and Blue Bell Mining company filed an amendment to its articles of incorporation in the county clerk's office by which the capital stock of the company is increased from \$250,000 to \$1,000,000, divided into shares of the par value of \$1 each.

## WEATHER FORECAST FOR FRIDAY

Seventeen days of sunshine in March and no sign of cessation, according to Section Director A. H. Thiesen of the local branch of the weather bureau. This is some record in most any climate and is a decided novelty in this city.

For a time Thursday it looked as though the local "winning streak," as baseball bugs would style it, was about to be broken. There was a suggestion

of a storm brewing in the northwest, but in the night Mr. Thiesen announced that the assembling of the storm cohorts had failed. The pessimists have little to say these days, but are doubtless waiting for the weather to break, when they will come forward with the time-discounted "I told you so."

Below is the meteorological report issued Thursday evening:

Temperature at 6 p. m., 65 degrees; maximum temperature, 68 degrees; minimum temperature, 44 degrees; mean temperature, 56 degrees, which is 14 degrees above normal. Total excess since the first of the month, 175 degrees; total excess since January 1, 129 degrees.

Precipitation at 6 p. m., .00 inches; total precipitation since first of the month, trace, which is 1.65 inches below normal. Total deficiency since January 1, 1.78 inches. Relative humidity, 55 degrees.

### BUSINESS NOTES

Salt Lake bank clearings Thursday amounted to \$1,006,649.77, as compared with \$954,878.60 for the corresponding day of last year.

George T. Odell, manager for the Consolidated Wagon and Machine company, returned from Washington Thursday, after testifying in the case before the interstate commerce commission, in which the local company was ordered to pay the Oregon Short Line \$500 on account of freight shipments which were billed at a rate lower than that established by the tariffs on file with the commission.

The Goddard Investment company, which has been located at 31 East First South street for the last four years, has taken a lease on the room at 50 Main street.

### BARNES GIVES OPINION ON STATUS OF OFFICERS

In response to an inquiry from Hyrum Standing, mayor of Brigham City, Attorney General Albert R. Barnes Thursday rendered an opinion on the matter as to whether or not city officials serving an unexpired term were entitled to an increase of wages provided for similar officers who had been newly appointed during their term of incumbency. Attorney Barnes, in his opinion, says that when an officer is appointed at a certain salary this remains in force throughout his incumbency, even though the salary for newly appointed similar officers has been increased.

The question which Mayor Sterling asked Attorney Barnes was relative to the pay of police officers.

### BAKER GETS DIVORCE ON CROSS-COMPLAINT

Says Wife Let Girls Smoke and Associate With Men of Low Character.

J. A. Baker was granted a divorce from Pauline Baker in Judge Morse's division of the district court Thursday upon his cross-complaint, which charged his wife with desertion and misconduct. Mrs. Baker charged her husband with failure to support and cruelty, but failed to appear Thursday, so Judge Morse dismissed her complaint and granted Baker a divorce on his cross-complaint.

They were married at Baker City, Ore., December 2, 1890, and have three children, two girls, aged 16 and 17 years, and a boy, aged 4. Baker was awarded the custody of the boy. He testified in court that he wanted his daughters to attend school, but that his wife refused to permit them to do so and allowed them to go on the stage and sing at picture shows. He also claimed that she permitted the girls to smoke cigarettes and associate with men of low character.

Baker exhibited some pictures which his wife had hanging in her home, all of which were of a rather spicy nature. He also testified that when he secured employment at Bingham Junction over a year ago and asked his wife to go with him to keep house she refused to go. Later he secured employment at Helper, but again his wife refused to go with him.

### Salt Lake Statistics

**Births.**  
R. M. Gilbert, 134 East Eighth South, boy.  
J. H. Williams, rear 930 West North Temple, girl.

A. B. Hirth, city building inspector, Thursday morning issued eleven permits for improvements, the total estimated value of which was \$36,390, as follows:

Alfred Keller, 531 Twelfth East street, four-room brick dwelling, \$3000.

Ellen R. Watson, rear 558 South Fourth West street, one-story frame shed, \$200.

L. C. Ammon, 215 West Fifth South street, frame shoe shop, \$1800.

Mary E. Reeves, 785-87 Linden avenue, one-story double brick dwelling, \$3000.

E. M. West, 501-2-5 Seventh East street, one-story brick stores, \$7000.

W. A. Adams, 256-60-64-66-70 Amos court, one-story brick terrace, twenty-five rooms, \$11,000.

Burt & Carls, 1118 South Lake street, four-room brick dwelling, \$1600.

J. W. Mellen, 376 North First West street, eight-room brick dwelling, \$3000.

### RECEIPT UNEQUIVALENT TO COIN OF THE REALM

So Holds Police Judge, and Carr Is Released on Charge of Theft.

A receipt for \$9.65 is not equivalent to \$9.65 in coin, in the eyes of the law, according to a decision rendered in police court Thursday morning by Judge J. M. Bowman. Consequently, Al Carr, charged with having stolen \$10 from Stephen Stanley February 12, was given his freedom.

When Carr was arrested he had \$9.65 in his possession, and it was alleged that this was the money stolen from Stanley. The coin was turned over to a bail commissioner at the police station, to be held pending the settlement of the case. Some days ago Carr retained Attorney James Smith to look after his interests. Carr gave Smith an order for the money taken from him at the time of his arrest, and the bail commissioner, as per the usual custom, turned the money over to the attorney and took a receipt. When the case was called Thursday morning the money alleged to have been stolen could not be produced in court, but the police offered the receipt in evidence. Attorney Smith objected, and the objection was sustained. The case was then dismissed for lack of evidence to convict and Carr went on his way rejoicing.

The police are now trying to figure out what to do in the future when attorneys seek to obtain money on orders issued by their clients.

### SOMETHING MORE ABOUT THE FEEDING OF FISH

Editor Tribune.—While the article in last Sunday's edition on feeding fish diseased meat is true enough, the reporter did not catch the most objectionable part of the fifth of the fish business as conducted in some places. Many ponds (about 100x150 feet in dimension and fed by one three-inch flowing well) contain from 10,000 to 30,000 trout, fed, in some cases, on the uncooked lungs from animals killed at the slaughter houses and held in warm weather for four or five days. The death rate among the fish under these conditions is very high and the dead fish are allowed to decay in the ponds.

The filthy feed, the high death rate, and the great number of fish crowded into the ponds make the business very filthy. All this filthy water is discharged into the irrigation ditches, brooks or creeks, to which stock must go to drink. If the streams were not so befouled by private fish ponds, perhaps fewer cattle would be condemned. Feeding diseased cows back to the fish in private ponds may be only another way of "giving the devil his due."

### ROOT MALPRACTICE CASE DISMISSED FOR NEW SUIT

The case of Mrs. Agnes Mudd against Dr. E. F. Root was dismissed by Judge Ritchie of the district court Thursday without prejudice, so that a new action may be filed.

Mrs. Mudd sued to recover damages in the sum of \$10,500 for alleged malpractice in the performing of an operation upon her, February 1, 1907.
